TECHNICAL INFORMATION

DESCRIPTION

Water-resistant cordura-like textile and split leather boots. Vincap non-metallic toe cap. Textile puncture resistant insole. SRC slip resistant bi-density polyurethane sole.

Upper: Water resistant cordura like fabric and split leather.

Lining: Synthetic fabric: high breathability and abrasion resistance. Foamed.

Removable Insole: Anatomic preformed with antibacterial treatment. It allows 30° washing and it is abrasion resistant.

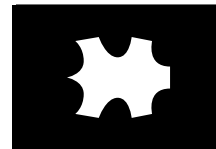

Sole: Double density polyurethane with anti-slip design. Ladder grip + slip resistance (level SR) according to EN ISO 20345:2022.

Safety toecap: Composite (Light, non-magnetic, thermally isolated, recovers form after normative impact).

Protective Insole: Non-metallic penetration resistant insole (High Tenacity Polyester).

Closing system: Laces.

FEATURES

SPLIT LEATHER

CORDURA-LIKE FABRIC

BREATHABLE LINING

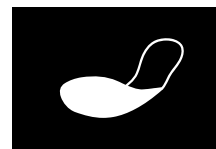

LACES

FUEL OIL RESISTANT

NON METALLIC TOECAP

FLEXIBLE ANTI-PUNCTURE INSOLE

WASHABLE REMOVABLE INSOLES
