

SNEAKERS RANGE

FAL SN200GR

Normative:	EN-ISO 20345:2011 S3+SRC+CI
Reference:	271201
Sizes:	35 a 48 EU
Height:	13 cm internally ($\pm 5\%$) [Size 42]
Weight:	1.15 Kg/pair ($\pm 5\%$) [Size 42]

DESCRIPTION

Water-resistant textile boot. Vincap non-metallic toe cap. Textile puncture resistant insole. SRC slip resistant bi-density polyurethane sole.

Upper: Synthetic hydrofugated fabric and reflecting elements. External rubberized toe protection

Lining: Coolmax fabric: high breathability and abrasion resistance. Foamed.

Removable Insole: Anatomic preformed with antibacterial treatment. It allows 30° washing and it is abrasion resistant.

Sole: Double density polyurethane with anti-slip design.

Protection toecap: Composite (light, non-magnetic, thermally isolated, recovers form after normative impact).

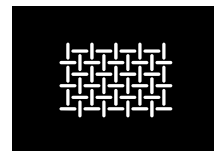

Protective Insole: Non-metallic penetration resistant insole (High Tenacity Polyester).

Closing system: Laces.
